1	K Devishree	Team Leader
2	Pon Sujatha M	Team Member
3	Karpagam N	Team Member
4	Deepika M	Team Member
5	Brindha K	Team Member

Project Summary

Parameter	Details
Project Title	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Objective	Track expenses, control budgets and receive AI-based personalised recommendations.
Technologies Used	Python, Streamlit, pandas, scikit-learn, Plotly, SQLite, Google Gemini API, GitHub
Deliverables in this Folder	Demonstration video of the working application (recorded from the running app) together with this demonstration plan.
Source Code and Documents	All eight phase folders are uploaded to the team's public GitHub repository.

Demonstration Flow (about 6 minutes)

Step	Feature Shown	What Is Demonstrated	Presented By	Time
1	Introduction	Problem statement, objective and overview of PocketSmart AI	K Devishree	1 min
2	Registration and Profile	Sign-up, login, entering monthly income and savings goal	Deepika M	45 sec
3	Expense Entry and Categorisation	Adding an expense; automatic category suggestion; CSV import	Karpagam N	1 min
4	Budgets and Alerts	Setting category limits; 80 percent warning and over-budget alert	Brindha K	1 min
5	Dashboard	Category-wise pie chart, monthly trend, total spent and remaining budget	Pon Sujatha M	45 sec

Step	Feature Shown	What Is Demonstrated	Presented By	Time
6	AI Recommendations and Chat	Personalised saving tips, budget-friendly suggestions, question on own data	K Devishree	1 min 15 sec
7	Report and Conclusion	Downloading the monthly CSV report; summary and future scope	Pon Sujatha M	45 sec

Demo Checklist

S.No	Check	Status
1	Application runs without errors from the start screen	Ready for recording
2	Sample user with expenses in at least 3 categories is prepared	Ready for recording
3	Gemini API key is configured as a secret and not visible on screen	Ready for recording
4	Screen recording includes voice explanation of every step	Ready for recording
5	Video file is saved in this folder and the public repository is opened in a private browser window to confirm access	Ready for recording
