

Data Flow Diagram & User Stories

Date	Team ID	Project Name
30 September 2026	SWTID-2026-9981	PocketSmart AI: Your Smart Budget & Recommendation Assistant

Level 0 Data Flow Diagram

Level 1 Data Flow Diagram

P3 and P4 return dashboards, alerts, recommendations and answers to the User through the Streamlit interface.

User Stories

User Type	Functional Requirement (Epic)	User Story No.	User Story / Task	Acceptance Criteria	Priority	Release
Customer	FR-1 User Registration & Profile	USN-1	As a user, I can register with my name, email and password so that my data is saved securely.	Account is created; duplicate email is rejected; password is stored as a hash.	High	Sprint-1
Customer	FR-1 User Registration & Profile	USN-2	As a user, I can log in and log out so that only I can see my finances.	Valid credentials open the dashboard; invalid credentials show an error.	High	Sprint-1
Customer	FR-1 User Registration & Profile	USN-3	As a user, I can enter my monthly income and savings goal so that the app can plan my budget.	Income and goal are saved and shown on the dashboard.	High	Sprint-1
Customer	FR-2 Expense Management	USN-4	As a user, I can add an expense with amount, date, description and payment mode so that my spending is recorded.	Expense appears in the expense list immediately after saving.	High	Sprint-1
Customer	FR-2 Expense Management	USN-5	As a user, I can edit or delete an expense so that mistakes can be corrected.	Changes are reflected in totals and charts.	Medium	Sprint-1
Customer	FR-3 Smart Categorization	USN-6	As a user, I want expenses to be categorised automatically (Food, Travel, Bills, Shopping, Health, Entertainment, Education, Other) so that I do not tag each one by hand.	Category is suggested for each new expense and can be changed by the user.	High	Sprint-2
Customer	FR-4 Budget Planning & Alerts	USN-7	As a user, I can set a limit for each category and receive an alert when I reach 80 percent or exceed it so that I avoid overspending.	Warning message appears at 80 percent and an over-budget message appears at 100 percent.	High	Sprint-2
Customer	FR-5 Spending Insights	USN-8	As a user, I can see charts of category-wise and monthly spending so that I understand where my money goes.	Pie chart, monthly bar chart and total-spent summary are displayed correctly.	Medium	Sprint-2
Customer	FR-2 Expense Management	USN-9	As a user, I can upload a CSV of past expenses so that I do not enter old data manually.	Valid rows are imported; invalid rows are reported with a reason.	Medium	Sprint-2
Customer	FR-6 AI Recommendations	USN-10	As a user, I can get personalised saving tips and budget-friendly product or alternative suggestions based on my spending so that I can save more.	Recommendations are relevant to the user's categories and stay within the remaining budget.	High	Sprint-3
Customer	FR-7 Ask PocketSmart Chat	USN-11	As a user, I can ask questions such as 'How much did I spend on food this month?' and get a clear answer so that I can query my finances in plain language.	Answer matches the stored data and is returned in a few seconds.	Medium	Sprint-3
Customer	FR-8 Report Export	USN-12	As a user, I can download my monthly summary as a CSV file so that I can keep or share it.	CSV file downloads with all expenses of the selected month.	Low	Sprint-3
Admin	FR-9 Deployment & Administration	USN-13	As an admin, I can deploy the app online and view basic usage statistics so that the team can monitor it.	App opens through a public link and usage counts are visible to the admin.	High	Sprint-3
